### Reno's records and information management resource

Offsite Data Depot, a Pacific Company, offers document storage and shredding solutions for clients throughout Reno and the surrounding areas. Our commercial records center is designed to preserve and protect business documents and files for the long term. With a facility that meets National Fire Protection Agency (NFPA) standards, we utilize top-of-the-line fire detection and suppression technology. Our facility also provides the following benefits:

- 24/7/365 digital surveillance
- Backup redundancy systems
- Access monitoring
- Sonitrol intrusion protection
- Records inventory management
- Barcode tracking of files.

We ensure continuous access to record retention inventory for our Records Storage clients. Our Retrieval and Delivery service offers on-demand retrieval of documents and files, including next-day delivery, same-day delivery, rush two-hour delivery, and Scan on Demand options. No matter where you are in Reno County, we prioritize delivering the information you need, precisely when you need it.

As a part of the Pacific family, Offsite Data Depot offers the most reliable and trusted document destruction resource for Reno's business community with NAID AAA Certified shred services. Our document shredding plant adheres to the highest privacy protection standards, with features such as restricted access, screened professionals, documented operational policies, and CCTV image capture and retention. In addition, we provide a **Mobile Shredding** solution that enables onsite document destruction at your Reno facility!
